

# FACING HEALTHCARE TRANSFORMATION: GOOD LEADERSHIP AND THE NATIONAL RECOVERY AND RESILIENCE PLAN

## RATIONALE

Exceptional historical periods call for exceptional measures. This is the moment in which the evidence has been demonstrated of how Leadership and the ability to govern processes in the health sector are the pillars for allowing the system to function effectively and efficiently, producing value.

In response to the pandemic crisis, the European Union has activated an exceptional investment of resources, configured in the National Recovery and Resilience Plan (NRRP), which is part of the Next Generation EU program, the 750 billion euro package. The NRRP presented by Italy, provides for investments and a coherent package of reforms, to which resources for over 220 billion euros are allocated. Within this framework, the health world will have access to an unprecedented amount of investments, which will allow to strengthen prevention and health services on the territory, modernize and digitize the health system and ensure equal access to care.

The purpose of this training activity is to provide those who will benefit from it with the necessary tools to understand the challenges of this historical phase, in Italy but with an international framework, and the sharing of experiences and best practices in healthcare realities.

The course will take place with a first part online (Chapter 1) and a second part in presence in Rome (Chapter 2), at ROMA EVENTI FONTANA DI TREVI, Piazza della Pilotta 4 - 00187 Rome, for participants chosen among top figures from different Italian regional health realities.

## CHAPTER 1

Webinar

24 February 2022

### PROGRAM COURSE

- 10:00 No time to lose**  
*Walter Ricciardi*
